### कविता

"बेटियाँ होती है सदा के लिए"

माँ मुझे कोख में मत मारो मैं भी तो हूँ तुम्हारा ही अंश।  
मैं भी तुम्हारा अभिमान बनूंगी मत समझना मुझको दंश।

हाड़मांस है तेरा मुझमें और तेरा ही लहू बहे मेरी रग रग में।  
करना थोड़ी सी हिम्मत और ले आना मुझको इस जग में।

मुझको तुम बस तुम एक मौका देना मैं जग पर छा जाऊंगी।  
मुझको करना दिल से याद बस मैं झट से पास आ जाऊंगी।

सच कहती हूँ इक दिन मैं तुमको बनकर दिखा दूंगी आसमा।  
सीना तानकर कह सकोगी दुनिया से कि तुम ही ही मेरी माँ।

HAPPY DAUGHTER'S DAY

मुझको तुम इस जग में आने दो मेरी तुमसे यही है विनती।  
मैं इस दुनिया में आ पाऊंगी तब ही तो बढ़ेगी हमारी गिनती।

मुझको अपनी गोद दे दो बस इतना करो मुझपर उपकार।  
भैया को सारे खिलौने दे देना और मुझको बस अपना प्यार।

मैं तो एक मासूम कली हूँ कभी भी तुझसे कुछ नहीं मांगूंगी।  
जो होगी कभी तकलीफ तुम्हे तो मैं सारी सारी रात जागूंगी।

## DEPARTMENT OF SPEECH AND HEARING SCHOOL SCREENING CAMP

School screening was conducted by Speech & Hearing Department in the month of August 2022. Hearing, speech and language difficulties are a common reason for referral to child health services during preschool years. A speech, language and hearing problem in the early years may have significant implications for one's communication and academics outcomes in adolescence & adulthood.

The department conducted screening program in Sri Ram Centennial School & International Araghya School. Total 300 students were screened & 82 students were identified with problems in speech, hearing and language domains. The identified children were given referral for further detailed investigation and intervention. The school screening program will provide a positive impact on children's educational and social outcome.

## Department of Anaesthesiology Pain Awareness Month - September

September is declared Pain Awareness Month by The World Health Assembly (WHA) – a subsection of the World Health Organization (WHO). Pain Awareness Month aims to make the public aware of how prevalent general pain is, educate them on how to deal with pain, and collect funding for research into the causes and treatment of various forms of pain.

Year 2022 is being celebrated as Global Year for “Translating Pain Knowledge to Practice” by International association for study of Pain (IASP).

Chronic pain has been linked to numerous physical and mental conditions and contributes to high health care costs, early retirement and productivity loss. On 10th September, at OPD registration counter of SAMC and PGI we conducted a general awareness and interaction with the patients and attenders regarding their perception about pain and its available treatment modalities. The aim was to sensitize the general public about the pain and the nonsurgical modalities available to treat it.

The program was conducted by Dr. Dipti Saxena, Prof & Head, Dr. Swapnil Kumar Barasker, Dr. Hemant Vanjare and Dr. Ankit Agarwal.

## Department of Pharmacology National Pharmacovigilance Week Celebration - 2022

PvPI - a small name but an interesting game – to improve healthcare system not directly but in numerous ways. It is governed by NCC-IPC Ghaziabad under Ministry of Health & Family Welfare, Govt. of India.

This year 2nd National Pharmacovigilance Week was celebrated from 17th to 23rd September 2022. The Theme was 'Encouraging Reporting of ADRs by Patients'.

Our healthcare professionals have been very effectively contributing towards patient safety, but this year the activity of PvPI got extended to the hands of patients themselves.

Dept. of Pharmacology, SAMC & PGI, Indore carried out numerous activities in innovative ways to achieve the goal of IPC (Indian Pharmacopoeia Commission) on patient safety.

Starting from Rangoli which efficiently depicted the helpfulness of ADR reporting. For example, one of the Rangoli showed how ADR reporting of drug minoxidil being used for treating hypertension led to its invention as a capable drug used for baldness. PvPI programme help identify life-threatening areas and consequential ban on such drugs from the market. Skit play (Nukkad natak) was used as a creative tool to educate the common public regarding reporting of ADR from the comfort of their home and also encourage them to save the toll- free number for ADR reporting. Poster making, nursing staff training, selfie point, distribution of pamphlets were some other attractions in the celebration. Students from neighbouring pharmacy colleges were also trained on ADR reporting with clinical exposure. 17th to 23rd of September is marked by NCC, IPC Ghaziabad – National Pharmacovigilance Week.

At the end certificates were distributed to the participants for their motivation.

Dr. Pooja Reddy

Prof. & HOD,

Dept. of Pharmacology, SAMC & PGI
